FOR IMMEDIATE RELEASE

FOR IMMEDIATE RELEASE

The National Science Foundation has awarded Montana State University four summer fellowships for graduate teaching assistants and three graduate fellowships for the next academic year, MSU President H. K. Newburn announced.

Recipients of the summer fellowships are Ronald B. Chase, Missoula; Dwight T. Maxwell, Kansas City, Mo.; Stanley J. Riel, Manchester, N. H., and Rodney A. Mead, Missoula. Mead is a graduate assistant in zoology and the others are assistants in geology. The awards will enable them to devote their summer at the University to their own research projects without carrying teaching responsibilities.

Chase, Maxwell and Wilbur D. Kuenzi, graduate student from Seattle, Wash., received NSF fellowships for advance study in earth sciences at MSU next year.

Merle Manis, MSU mathematics instructor, was awarded an NSF graduate fellowship for a year's study toward the doctorate at the University of Oregon. Manis earned his master's degree at MSU.
